RE: Request for Approval of Utah Building Stone Supply, Lynn Springs Mine, M/003/025,  
Box Elder County, Utah

The Division finalized the review of Utah Building Stone Supply's Lynn Springs Mine, located in Box Elder County, Utah and tentative approval was granted May 3, 1999. The tentative approval notice was sent to the local newspapers on to begin a 30-day public comment period on May 12, 1999. No adverse comments were received for this project.

This operation was originally permitted as a small mining operation. The operator exceeded the five acre threshold for a small mining project, and therefore, the operator provided the Division with a \$9,500 interim surety until such time as the Division could review and approve of the large mining project. After final review and tentative approval the operator submitted an additional \$6,000 surety bringing the total reclamation surety to \$15,500.

The operator has provided the Division with a Reclamation Contract and surety in the form of two Certificates of Deposit, issued by US Bank in the amount of \$15,500.

Would you please sign and date the tabbed documents so we can issue final approval for the Lynn Springs Mine. Thank you for your consideration of this request.

*Approved 8-2-99*
